New Business Opportunities - Insurer Comparison

Opportunities are risks that are submitted by the Broker to the Insurer. Where Brokers request multiple Quotes for the same risk, it is counted as a single opportunity. This is measured on the inception date of an opportunity.

Declined Opportunities are based on the final state of the business. If an insurer returns a request for more information, that is captured as a 'referral' and is not a decline in the final state of business.

Opportunity Comparison by Insurer
